

Sealed Tilt Switch

New Product Introduction

R511, R511L vibration switch are sensitive triggering switches, made from environmental protection materials. The switch features are sealed, dust proof, water proof with a small action angle and long operation life. They're recommended to use in low voltage and low current. The switches are with patent protection.

Application

Game machines and toys, Security systems, Electrical and electronic products, Personal security alarms, Vibration sensors, Car alarms.

Specifications

Maximum Switch Rating : 24VDC, 6mA

Electrical Life : 200,000 cycles Min.

Contact Resistance : 0.5Ω Max.

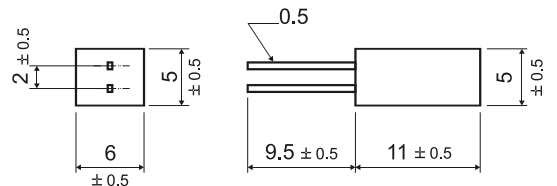

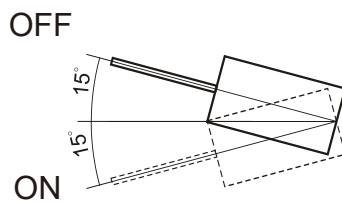

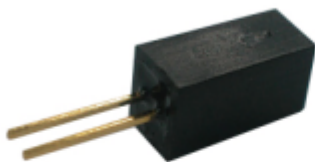

Differential Angle : 15° Max.

Solder Temperature : Manual soldering 350°C, 3~5 seconds.

Operating Temperature : -40°C~+85°C
